Genius Weft

CONSTRUCTION

Fine folded weft edge

PRODUCT DIFFERENCE

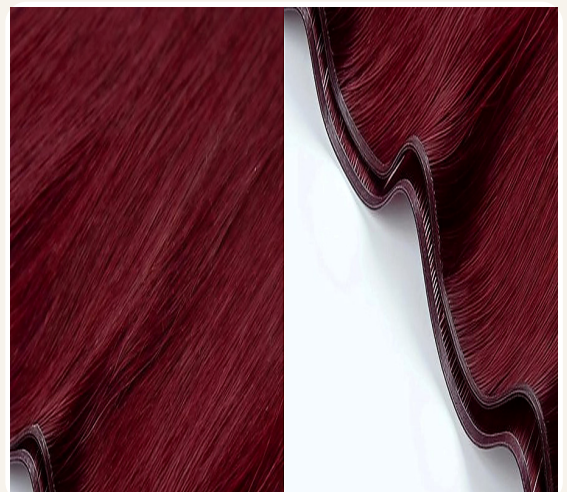

A slim, flexible row with a low-profile finish.

BEST SUITED FOR

Buyers developing lightweight, cuttable professional wefts.

CONSTRUCTION DETAILS

Invisible Genius Weft

CONSTRUCTION

Slim invisible weft edge

PRODUCT DIFFERENCE

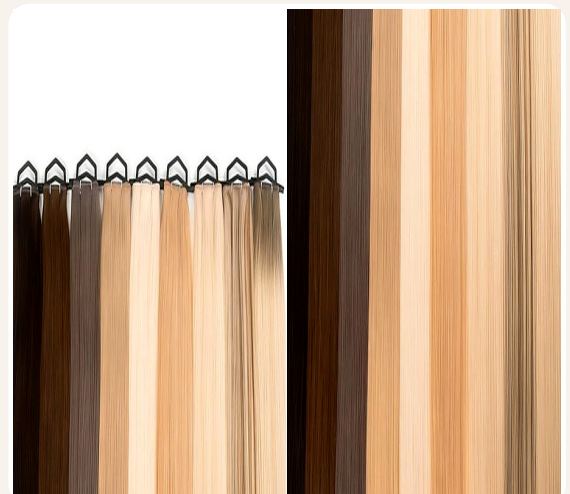

Extra-flat construction designed to reduce visible bulk.

BEST SUITED FOR

Discreet row placement and fine-hair extension programmes.

CONSTRUCTION DETAILS

Flat Silk Weft

CONSTRUCTION

Flat silk weft band

PRODUCT DIFFERENCE

Smooth, clean top band with a soft finish against the head.

BEST SUITED FOR

Premium flat-weft ranges and dimensional colour programmes.

CONSTRUCTION DETAILS

Flat Weft

CONSTRUCTION

Flat machine-made band

PRODUCT DIFFERENCE

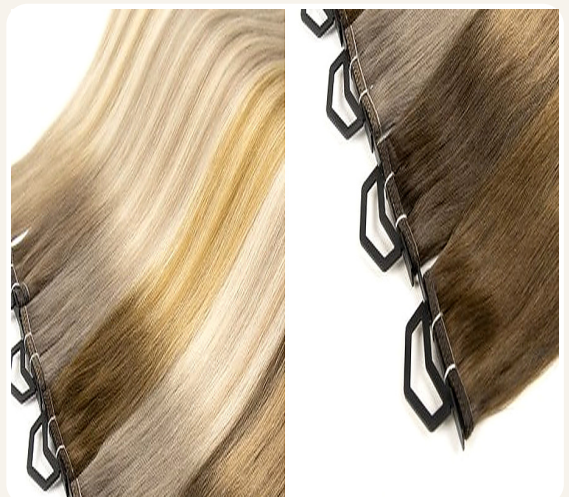

A streamlined, stable band for straightforward row installation.

BEST SUITED FOR

Salon and wholesale lines needing a practical low-profile weft.

CONSTRUCTION DETAILS

Flex Weft

CONSTRUCTION

Flexible weft band

PRODUCT DIFFERENCE

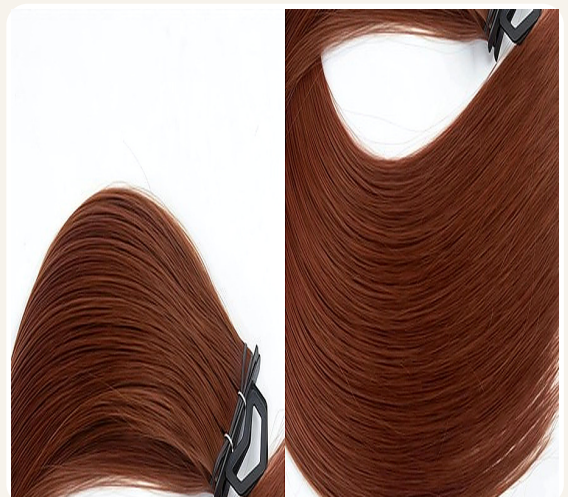

Designed to follow the curve of the head during installation.

BEST SUITED FOR

Comfort-led row systems and customised head contours.

CONSTRUCTION DETAILS

Hand-Tied Weft

CONSTRUCTION

Hand-tied narrow seam

PRODUCT DIFFERENCE

Lightweight construction with natural movement and a fine seam.

BEST SUITED FOR

Traditional hand-tied rows where softness and flexibility matter.

CONSTRUCTION DETAILS

Machine Weft

CONSTRUCTION

Machine-sewn weft seam

PRODUCT DIFFERENCE

Durable construction for repeat salon use and broad specifications.

BEST SUITED FOR

High-volume wholesale, salon and private-label programmes.

CONSTRUCTION DETAILS

XO Genius Weft

CONSTRUCTION

XO Genius-style edge

PRODUCT DIFFERENCE

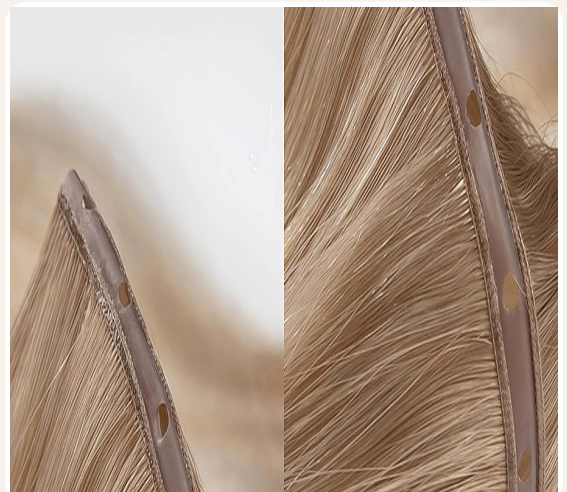

A speciality XO profile combined with a slim weft construction.

BEST SUITED FOR

Brands seeking a differentiated low-profile weft format.

CONSTRUCTION DETAILS

XO Weft with Micro-Ring Holes

CONSTRUCTION

XO band with preformed holes

PRODUCT DIFFERENCE

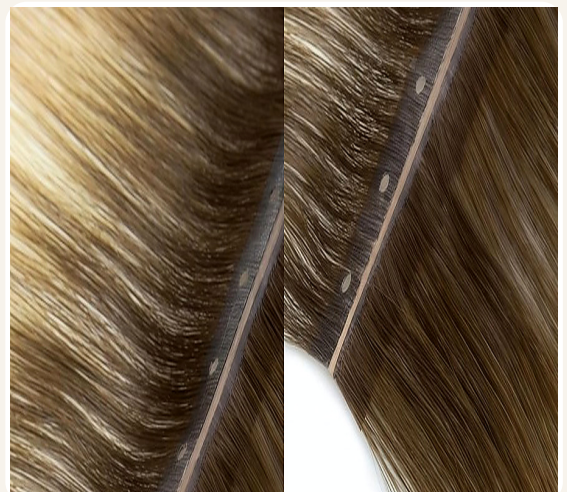

Integrated holes organise bead placement along the row.

BEST SUITED FOR

Beaded-row systems requiring controlled spacing.

CONSTRUCTION DETAILS

PU Injection Weft with Micro-Ring Holes

CONSTRUCTION

Injected PU band with holes

PRODUCT DIFFERENCE

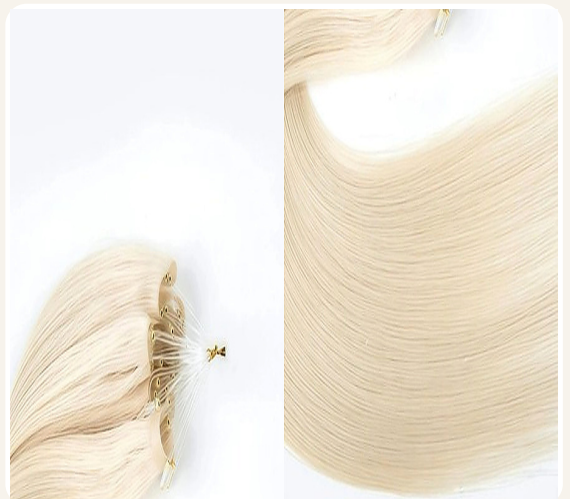

A clean PU surface with integrated points for ring installation.

BEST SUITED FOR

Neat, structured beaded rows with an injected finish.

CONSTRUCTION DETAILS

PU Skin Genius Weft with Micro-Ring Holes

CONSTRUCTION

PU skin Genius band with holes

PRODUCT DIFFERENCE

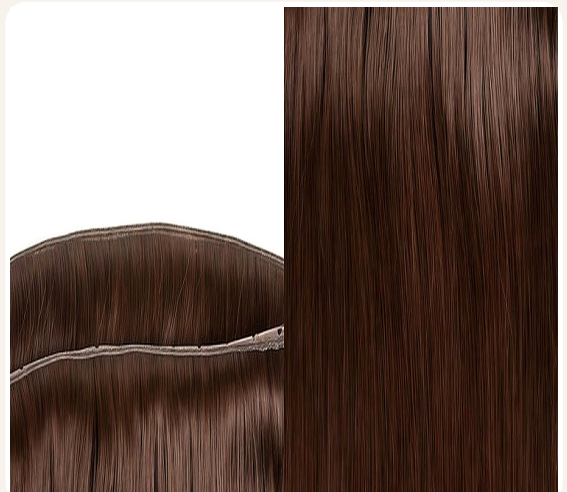

Skin-style coverage and organised micro-ring attachment.

BEST SUITED FOR

Low-visibility beaded rows and specialist salon systems.

CONSTRUCTION DETAILS

PU Skin XO Weft

CONSTRUCTION

PU skin XO construction

PRODUCT DIFFERENCE

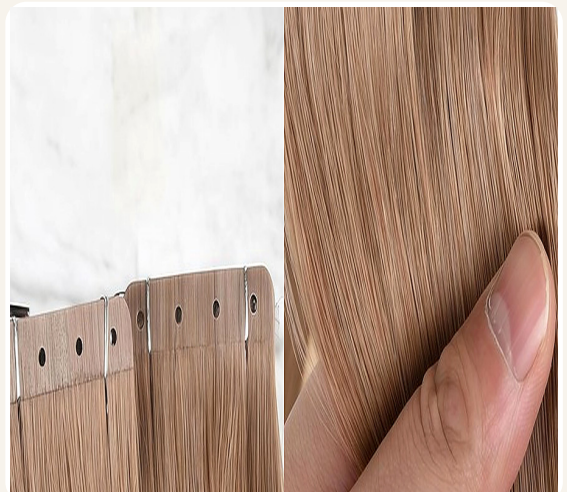

A smooth skin-style band with a low-visibility XO profile.

BEST SUITED FOR

Buyers combining a discreet surface with structured row work.

CONSTRUCTION DETAILS

Twin-Tab Butterfly Weft

CONSTRUCTION

Twin-tab butterfly attachment

PRODUCT DIFFERENCE

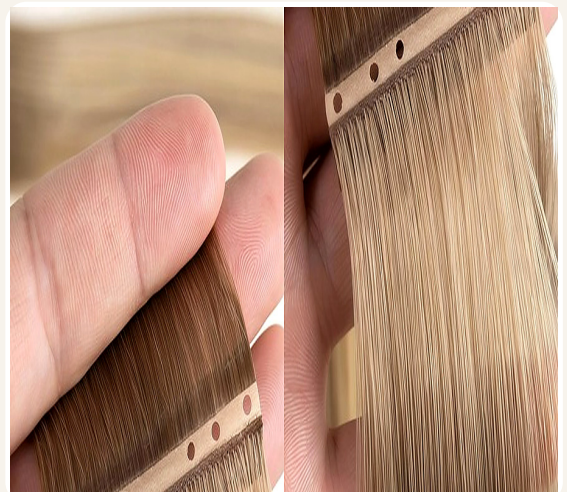

Twin tabs create defined attachment points for a structured row.

BEST SUITED FOR

Beaded applications that prioritise placement control.

CONSTRUCTION DETAILS

Twin-Tab Genius Weft with Micro-Ring Holes

CONSTRUCTION

Twin-tab Genius band with holes

PRODUCT DIFFERENCE

A double-band format with organised ring attachment points.

BEST SUITED FOR

Advanced salon rows requiring stability and low profile.

CONSTRUCTION DETAILS

Flat-Tip Human Hair Extensions

CONSTRUCTION

Flat keratin bond

PRODUCT DIFFERENCE

A flat bonded tip designed to sit close to the scalp.

BEST SUITED FOR

Professional strand-by-strand programmes with a discreet bond.

CONSTRUCTION DETAILS

I-Tip Human Hair Extensions

CONSTRUCTION

I-tip strand

PRODUCT DIFFERENCE

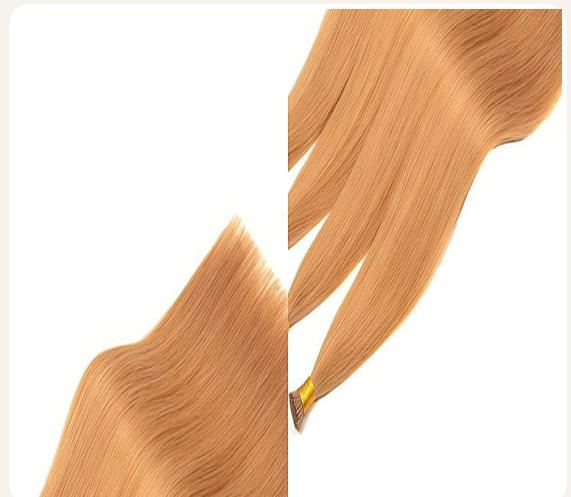

Heat-free strand format installed with beads or micro-rings.

BEST SUITED FOR

Reusable cold-application systems and customised strand weights.

CONSTRUCTION DETAILS

U-Tip Keratin Extensions

CONSTRUCTION

U-tip keratin bond

PRODUCT DIFFERENCE

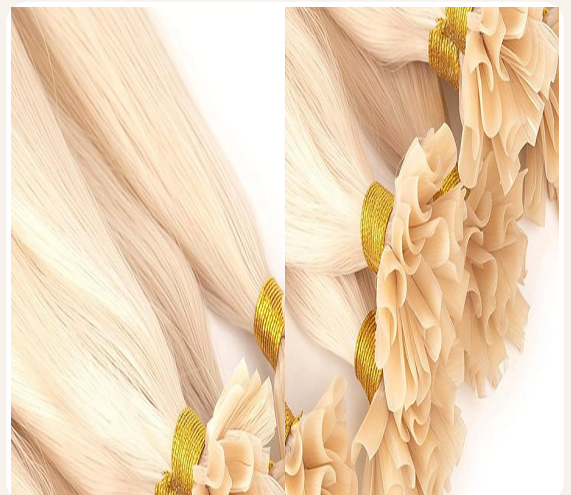

Classic nail-tip format for controlled hot-fusion application.

BEST SUITED FOR

Established keratin programmes requiring custom bond colour and size.

CONSTRUCTION DETAILS

Micro-Link Human Hair Extensions

CONSTRUCTION

Pre-loop or link-assisted strand

PRODUCT DIFFERENCE

Link-assisted construction supports quick, controlled ring installation.

BEST SUITED FOR

Salons that value reusable strands and simplified application.

CONSTRUCTION DETAILS

Nano-Tip Human Hair Extensions

CONSTRUCTION

Fine nano-tip strand

PRODUCT DIFFERENCE

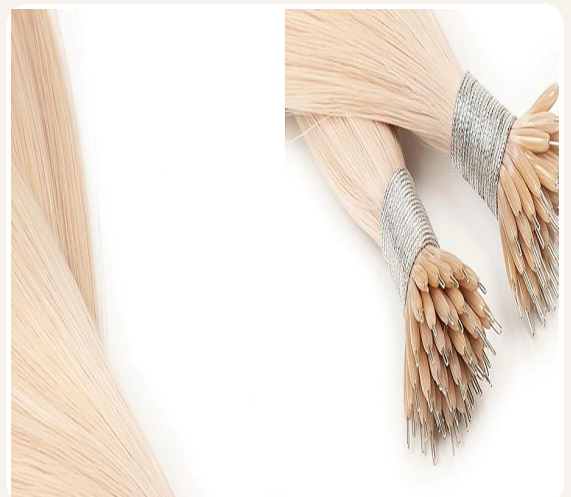

A compact attachment point developed for small nano rings.

BEST SUITED FOR

Fine-section work and low-visibility strand applications.

CONSTRUCTION DETAILS

Invisible Seamless Tape-In Extensions

CONSTRUCTION

Hair-covered seamless tape tab

PRODUCT DIFFERENCE

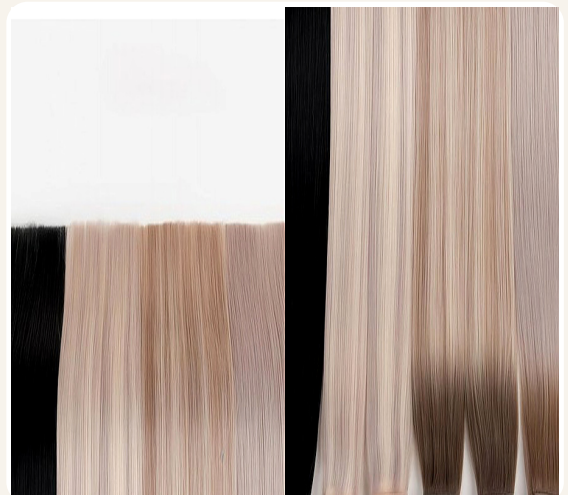

Hair coverage across the tab helps the attachment blend naturally.

BEST SUITED FOR

Fine-hair and visible-parting areas where coverage matters.

CONSTRUCTION DETAILS

Genius Tape-In Extensions

CONSTRUCTION

Slim Genius tape tab

PRODUCT DIFFERENCE

A compact tape construction developed around a low-profile concept.

BEST SUITED FOR

Brands building differentiated, lightweight tape programmes.

CONSTRUCTION DETAILS

Injected Tape-In Extensions

CONSTRUCTION

Injected hair-covered tape tab

PRODUCT DIFFERENCE

Injected attachment area creates a clean, natural-looking finish.

BEST SUITED FOR

Premium tape ranges focused on realism at the root.

CONSTRUCTION DETAILS

Invisible Genius Tape-In Extensions

CONSTRUCTION

Invisible Genius tape tab

PRODUCT DIFFERENCE

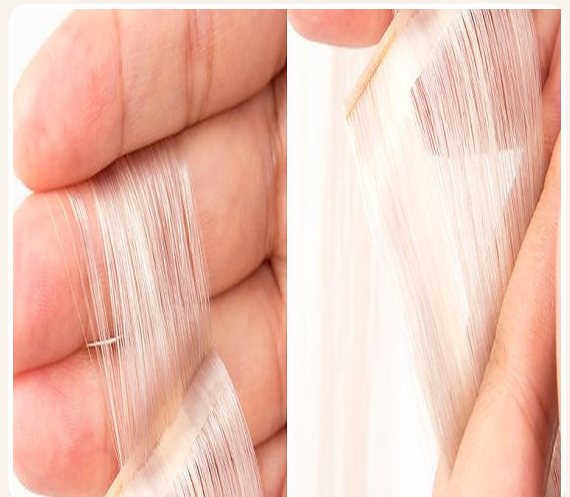

Combines hair coverage with a slim, low-profile tape format.

BEST SUITED FOR

Discreet premium tape programmes and fine-hair applications.

CONSTRUCTION DETAILS

Long-Strip Tape-In Extensions

CONSTRUCTION

Continuous tape strip

PRODUCT DIFFERENCE

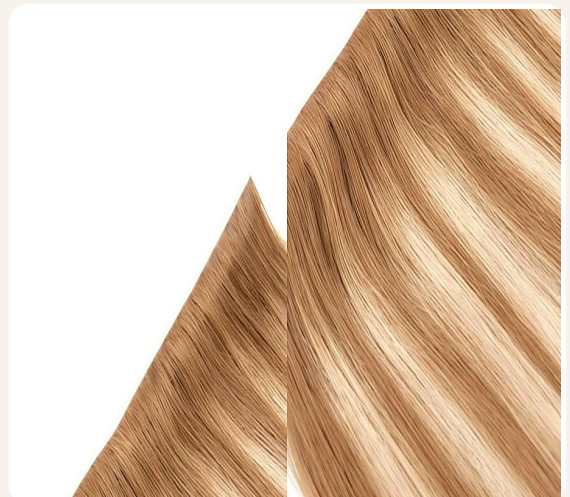

A continuous strip that can be configured to different widths.

BEST SUITED FOR

Custom installation formats and buyer-specific tape dimensions.

CONSTRUCTION DETAILS

Classic Tape-In Extensions

CONSTRUCTION

Classic salon tape tabs

PRODUCT DIFFERENCE

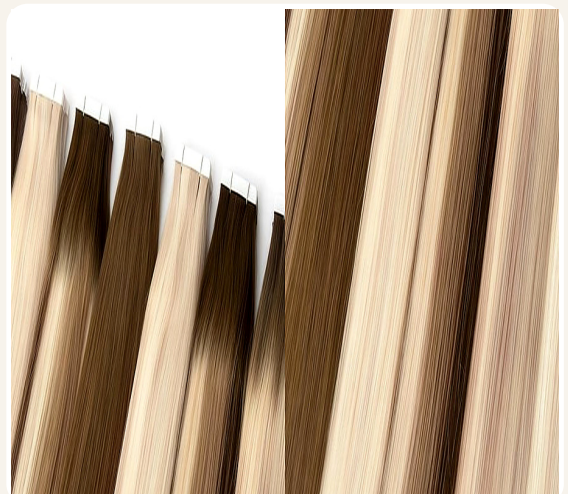

Reliable standard format for established salon and retail ranges.

BEST SUITED FOR

Core tape-in collections with broad colour and weight options.

CONSTRUCTION DETAILS

Invisible Genius Clip-In Extensions

CONSTRUCTION

Slim Genius-style clip-in band

PRODUCT DIFFERENCE

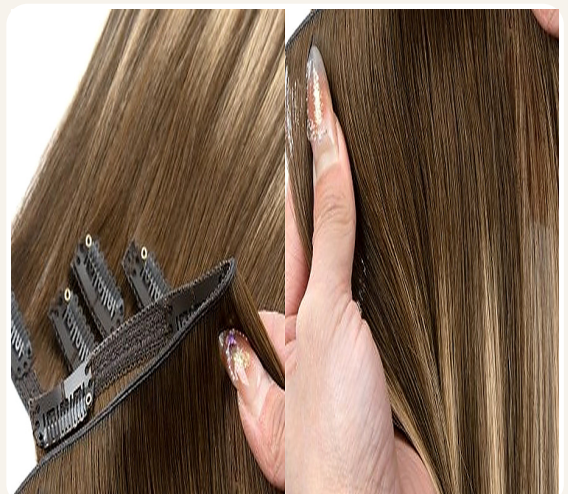

A low-profile band designed to reduce bulk beneath the hair.

BEST SUITED FOR

Premium reusable sets and discreet volume enhancement.

CONSTRUCTION DETAILS

PU Seamless Clip-In Extensions

CONSTRUCTION

Flexible PU seamless band

PRODUCT DIFFERENCE

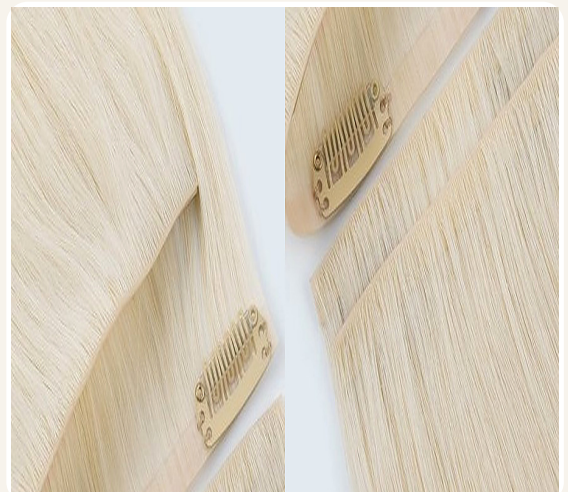

Smooth PU attachment area for a flat, comfortable fit.

BEST SUITED FOR

Retail sets prioritising comfort and a clean root finish.

CONSTRUCTION DETAILS

Classic Clip-In Extensions

CONSTRUCTION

Fabric weft with sewn clips

PRODUCT DIFFERENCE

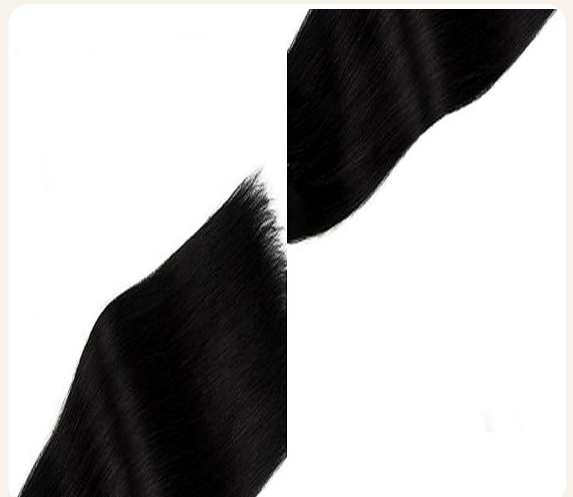

A familiar multi-piece format for flexible length and volume.

BEST SUITED FOR

High-volume retail, salon and private-label programmes.

CONSTRUCTION DETAILS

Seamless Clip-In Extensions

CONSTRUCTION

Flat seamless clip-in band

PRODUCT DIFFERENCE

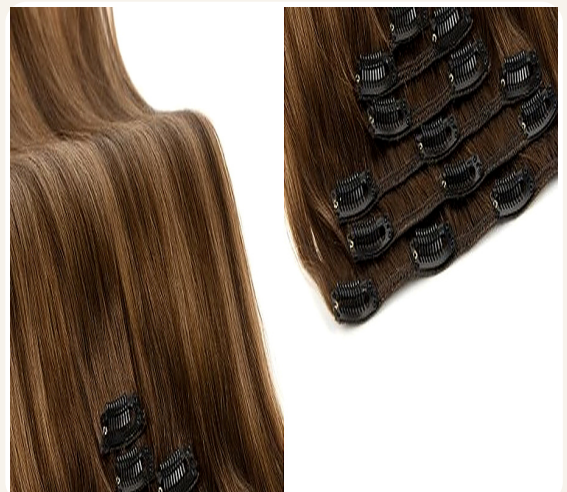

Reduced band bulk helps the set sit closer to the head.

BEST SUITED FOR

Customers seeking a flatter alternative to traditional clip-ins.

CONSTRUCTION DETAILS

Halo Human Hair Extensions

CONSTRUCTION

Adjustable transparent wire halo

PRODUCT DIFFERENCE

One-piece reusable extension supported by an adjustable wire.

BEST SUITED FOR

Quick, non-permanent volume and retail-ready halo collections.

CONSTRUCTION DETAILS

V-Light Extension System

CONSTRUCTION

Fine-section V-Light format

PRODUCT DIFFERENCE

Targeted strand placement for low-visibility professional work.

BEST SUITED FOR

Specialist salons treating fine areas or adding localised density.

CONSTRUCTION DETAILS

6D Extension System

CONSTRUCTION

Organised multi-strand format

PRODUCT DIFFERENCE

Multiple strands are arranged for faster salon application.

BEST SUITED FOR

Application systems focused on speed and consistent spacing.

CONSTRUCTION DETAILS

H6 Extension System

CONSTRUCTION

Buyer-specific H6 format

PRODUCT DIFFERENCE

Specialised system produced around the buyer's approved method.

BEST SUITED FOR

Existing H6 programmes requiring specification-led OEM support.
